Dr. Jones Sends Report

The Sentinel is indebted to E. Lester Jones, Deputy Commissioner of Fisheries, for a complete copy of his Report of Alaska Investigations, made last summer during his trip through Alaska. The report is a very interesting one and covers every frange of the Alaska fishing industry besides an investigation into the conditions of the fur bearing animals of Alaska and all other branches of the service.

One of the most notable recommendations of the report is that Alaska be divided into five districts to obtain a more complete administering to their separate needs, and also that Southeastern Alaska be cut into three separate districts and the administering of closed seasons for the fishing, as the Wrangell District fishing should stop September 1st, and the district embraces all the waters in Southeastern Alaska between 56 deg. north latitude and 57 deg. north latitude, or with a southern boundry line approximately from Yes Bay hatchery westward to Cape Decision.

Under the heading of "Some Needs of Alaska", on page 61, is found: "Another matter that was brought to my attention was the absence of a Government Wharf at Wrangell. When a Government (Continued on Last Page)

Ketchikan Here February 6th

Manager Lynch, of the Wrangell Basket Ball team, is in receipt of a wire this morning from Dr. Walker, manager of the Ketchikan Basket Ball team, stating that they will be in Wrangell and play a return game on the night of the 6th of February, a week from next Saturday. We will be waiting for them and will be right there to see the local boys hand another bunch to Ketchikan.

Mrs. Lee Passes Away

Elizabeth N. Lee, the beloved wife of Albert Lee, passed away at the family residence at four o'clock last Saturday morning January 23.

The deceased has been ailing in health for some time, having been confined to her bed for the greater part of the past four months. Deceased leaves a husband and eight year old son to mourn her passing away.

Mr. Lee and family have made Wrangell their home for the past ten years, and for the past two years he has acted as pilot on the local mill tug Alaska, and has many friends in Wrangell who sympathise with him in his time of sorrow.

Night Rate On Cable

According to information given out by the local cable office, the Government has seen fit to place in service a new Night Letter Rate, which will take effect February 1st. The new rating will help in several ways, by taking part of the load off the wires at the busy time and make the charges much cheaper, the new rate being 12 cents per word for a ten word message as to 16 cents by the present day rate. Messages can be filed at any time but will not be sent until the day work is cleared from the wires and will be delivered the next day, or if it goes further than Seattle the night service will be carried all the way through. The new rate not only applies to Seattle message but takes in Alaska as well, hence a message under this head can be sent to Ketchikan or Juneau at the rate of 3 cents per word for ten word message.

Looking For Information

An Irishman walked into a hotel and noticed two men fighting at the far end of the room. Leaning over the bar he earnestly inquired of the bartender:

"Is that a private fight, or can anyone get into it?"—Excavating Engineer.

Wrangell Team Fastest In Alaska

That Wrangell has the fastest Basket Ball team in Alaska is sure the truth, and the boys added another laurel to their cap last Saturday night when they defeated the fast Metlakatla team in their return game at the Rink to the tune of 19 to 24. The game was the fastest that has ever been played in the local hall and all of the team clothed themselves with glory by playing some of the fastest ball ever seen. The Metlakatla team is an exceptionally fast team, the only time they have ever been defeated is by the Wrangell boys in both games, at Metlakatla and here, but they have not the speed and endurance of the local team.

The game Saturday night was the return game to the one played at that place on January 2nd last. The team, accompanied by a 24 piece band, arrived last Friday. Friday night the band put on a concert at the Rink which was certainly a musical treat as the Metlakatla Concert Band, under the leadership of Patrick J. Verney, is one of the finest bands in Alaska, their Overture "The Royal Trupeters" and the "American" Patrol are numbers especially good.

After the game Saturday night, the band and the local orchestra furnished some great music for a dance which was very well attended and every one had a good time.

Monday night the Metlakatla team played the Wrangell second team and carried off the bacon to the score of 8 to 13.

The game Saturday night was played before the largest crowd that has ever turned out in the town, the large Rink being packed to the doors, and the rooters gave both teams good support. Come on boys lets go after the rest of the Alaska teams and show them that Wrangell is on the athletic map to stay.

Well Known Alaska Woman Dies

News comes to Wrangell of the death of Mrs. S. Hall Young, wife of Rev. S. H. Young, who was the head of Presbyterian missions for over twenty-five years in Alaska. Mrs. Young passed away in New York City on the 13th of January.

A husband and two daughters are left to mourn the demise of this estimable lady who had many friends in the northland.

Rev. Young was at one time stationed at Wrangell and has many friends here who sympathise with him in his hour of sorrow.

Another big Home Talent Show at the Photoshow next Saturday Woodworth and Purcell promise an entertainment royal, big film feature and two act roaring comedy with a cast of four people. Big dance after show, Billy will play the piano. Big time for all.

The Jefferson is due Sunday.

Tonight "The Tiger Lily", the Rink.

Alki Arrives Under New Co.

The Al-Ki on her first trip under the new management, the Border Line Transportation Co., arrived up early last Sunday morning. The Border Line Co. recently purchased the vessels of the Northland S. S. Co. and will place another vessel on the run as soon as the spring business opens up. The new vessel is known as the Dispatch and with the new fleet the new company will go after their share of the Alaska business.

Jack Bender After Pictures

Manager Bender of the Wrangell Photoshow has branched out in a new line this week when he returned from Juneau on the Jefferson with a picture taking machine for making moving pictures. Jack's first work along that line will be a picture of the wreck of the Delhi, for which place he left Tuesday on the gas boat Grace in company with several other Wrangellites. Jack is right there when it comes to getting new ones and should make a hit with the first one.

The Petersburg Report man must expect to stick, as he is taking orders for 1916 delivery.

Alaska Packers Annual Report

The Sentinel is in receipt of the Annual Report of the Alaska Packers Association on a late mail and from it we glean the following interesting facts.

The big company operated a total of 13 canneries during the 1914 season, 14 of them in Alaska and one on Puget sound. The total pack of the company was 1,241,980 cases. The company now has a total fleet of 87 vessels.

In speaking of the market the report states: "During the first part of 1914, the salmon markets were satisfactory and promising. The outbreak of the European war caused serious universal economic disturbances. Our company has not sold any of its 1914 pack for its usual outlets in Asia, Africa or South America. The salmon shipments to Europe and to our southern states were greatly curtailed. Some of our northern states, and Australia, took rather a full proportion. In consequence of these conditions the carry-over of the 1914 salmon pack on the Pacific Coast is the largest in the history of the business. The canned salmon stocks in hands of the trade are light, and with reasonable distribution the carry-over should become greatly reduced before the 1915 pack is ready for marketing."

The Rink has the goods.

Big Picture At Rink Tonight

We are going to give the Motion Picture goers a real treat tonight when we show "The Tiger Lily", a great three part Vitagraph drama featuring Cora Swain Gordon the wonderful animal tamer with the Vitagraph players. Miss Gordon will have the support of an all star cast of the best from this great company's studios. Next week we are going to have another great animal picture from the Selig Co., "Wamba, the Child of the Jungle", which is a positive hair raising story. Saturday night there will be a dance after the show. In case the Ketchikan ball team arrive for that night there will be a dance anyway. Remember the Rink is the home of the best that the market affords. Get the habit and go to the Rink.

Sumdum Probably Be Worked

E. Warren and Andrew Johnson came in on Thursday from Sumdum, to where, accompanied by H. S. Thain, they went about six weeks ago to look over some placer property.

They report having bought and bonded thirty-seven placer claims for a London Syndicate which was organized by Mr. Thain, while in England, about the time war was declared by that country.

The property will be worked the coming season. A dredge is to be brought north in March, which will be used on about half of the area of the claims, the other half to be hydraulically worked.

It is conservatively estimated that the ground will average sixty cents per yard.

It is expected to have a crew of about twenty men employed for the season.

A good portion of the material and supplies for the camp are to be shipped from Petersburg, as the trip may be made from here with less chance of encountering rough weather than from the Gastineau channel towns.

Mr. Thain is engineer and manager for the syndicate.—Report.

.401 Caliber

Self-Loading Rifle.

This new Winchester is reloaded by recoil, the repeating as well as the firing mechanism being under control of the trigger finger. A bullet fired from it strikes a blow of 2038 pounds—force enough to topple over the biggest game—penetration enough to reach the innermost vital spot. The wonderful in operation and powerful in execution, this rifle is neither complicated in construction nor cumbersome to handle.

It Hits Like The Hammer Of Thor.

Printing Point Does Not Bob Up and Down

In an L. C. Smith & Bros. Typewriter the point on the paper which is to receive the type impression is stationary at the instant the type hits. The carriage does not bob up and down when the shift is made to write capitals.

Why?

Because the type is shifted—not the carriage.

The only movement of the carriage is back and forth on its closely adjusted ball bearing runways—and this does not take place while the print is being made. There is no lifting of the carriage.

This is one reason why L. C. Smith & Bros. typewriting is free from blurs and every letter in the right place.

WEST COAST NEWS

F. E. BUTLER, EDITOR : Craig, Alaska

W. G. Beattie, Supt. of Government schools in this division, Dr. Emil Kurlish, Government physician and surgeon of Washington, D. C. and Mr. Helwig, private secretary to superintendent of native schools of Alaska, have been spending several days in Hydaburg and Klawock looking after school matters and investigating health condition of the natives of the two villages. Dr. Kurlish successfully performed quite a number of delicate surgical operations upon native patients.

Mr. A. L. Brown, the groceryman is giving additional evidence of his faith and confidence in the future of the town by putting in a new float in the rear of his place of business. The float when completed will be about thirty by seventy feet and have a depth of water at the front of seven feet at extreme low tide. This is a much needed improvement and will be a great accommodation to operators of gas boats and other small craft.

A Board of Health has been organized by the school board, under and by virtue of the law enacted by the recent Territorial Legislature, the members of which being V. D. McMillan, Dr. W. G. Benawa and Frank W. Thompson. While we have an exceptionally healthy town, it will now be in order to clean up that we may have a spotless town.

Mike Lynch arrived on the last trip of the Uncle Dan from Wrangell way and is now a resident here.

The Pirate, which has been on the East Coast for the past few weeks fishing herring, is expected back here, her home port, almost any day now as the herring have begun to show up in these waters with every appearance of a big run.

Miss Lacy Webster gave a party on Tuesday evening, Jan. 20th, to a number of her friends, it being the occasion of the anniversary of her birth-day (we will not say which one). It is reported that a good time was had and greatly enjoyed by all the participants.

W. D. McMillan, "farmer Bill" has got quite a plot of ground cleared and almost ready for seeding for the early spring crop. We are not advised as to the character of the crop he intends to cultivate but doubtless it will consist principally in bananas, grape fruit and, if somebody don't hand him one, lemons, all of which would seem to be congenial to our present climate.

Throw a PEBBLE into a Pool and see what a circle it makes. Throw an ADVERTISEMENT in this paper and you will also be surprised at the result.

boat arrives there for coal or other supplies, it must go to a private dock and obligate itself to the extent of buying its coal and perhaps other supplies that are sold at a high price. I am safe in saying that if the Government had its own wharf, which is perfectly feasible, with marine railways, or a small dry dock for repairing smaller vessels, a great deal of money could be saved in the course of a year, in addition to a saving of about \$4 a ton on coal purchased. Space forbids us going further into the report except to state that it is a very complete one, and should go far to help open the eyes of the law makers at Washington as to the needs of one of the greatest assets of this north country.

Petersburg Bank Cashier Resigns

K. L. Steberg has resigned the position of cashier of the Petersburg Bank, and C. E. Clure has been appointed his successor. Mr. Clure is recently from Cambridge, Idaho, and is an experienced banker. Mr. Steberg, who has been on the Sound for the past three weeks, is returning north on the Al-Ki. While nothing is known of his plans it is not thought likely that he contemplates leaving Petersburg, as he has other business interests here to which he may profitably devote all of his time.—Report.

Clippings From Our Exchanges

The fall election cost \$2,500 in the Fourth division.

School has opened at Seward in the new school house that has a chimney on it.

An exchange puts it that Juneau has an ambition to become the pest house of Alaska.

Three dollars a day and board is the wage scale for miners in the Nome district this winter.

The territorial legislature will be asked to extend the rights of women in Alaska to jury service. Hon. E. B. Collins will father the movement.

According to the records and figures of the Fairbanks United States land office, which embraces as its district the whole interior of Alaska, an estimated area of 300,000 square miles, there are only on this date fifty-five homestead entries. They contain an aggregate of \$15,344.44 acres.

A Ketchikan paper devotes a generous portion of its valuable space to the attempt to prove that Juneau is not the proper place for the capitol of Alaska.

The pathetic and persistent appeals of the Ketchikan papers for "bait" may be said to be responsible for the immense schools of herring which are crowding the waters of Tongass narrows.

The Cordova Chamber of Commerce has turned down the proposition to subsidize a boat service from that town to Port Wells, believing that the trade of the district which that town can legitimately hope to share would not warrant the expense.
